Connectivity

Supports Wi-Fi 6E, Bluetooth 5.3, and multiple ports for seamless device integration.

Why Choose the Classic S5 for Business?

Flexible
Secure
Reliable

Ultimate Flexibility

Super charge your Teams Room and Zoom Room meeting spaces by adding powerful whiteboarding collaboration and presentation tools.

Seamless Connectivity

Works seamlessly with Microsoft Teams and Zoom Room devices or use Google Meet.

Best-in-Class Cyber Security

The S5 goes beyond relying solely on Google security patches by regularly reviewing and enhancing security to meet higher standards.

Google Cloud Security certification

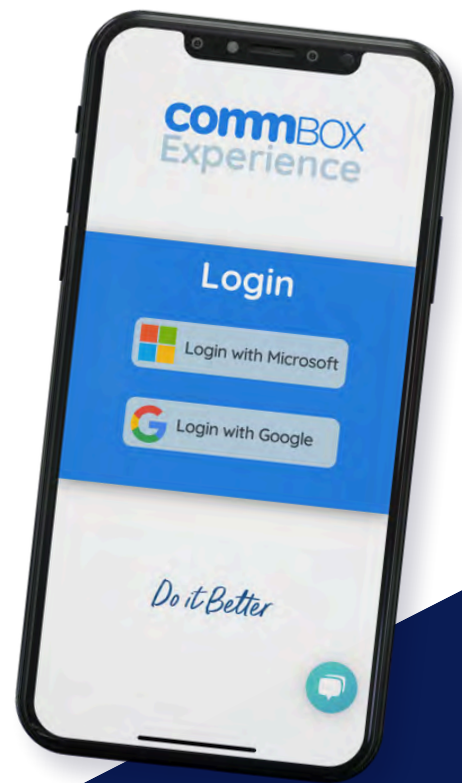

CommBox OS is Google CASA Tier 3 Certified, ensuring the highest level of security and reliability.

Automated Session Protection

S5 ensures that users are automatically logged out after a set period to safeguard their data, even if they forget to log out.

Easy to Manage and Configure

Manage your fleet with CommBox Manage. Configure one screen and push to all.
