NAI 2 Written strategies for addition

Student Book page 55

When do you add?

Some of these problems need addition. Read each problem carefully.

Colour the ones that can be worked out using addition, write a number sentence, then add to find the answer.

a In my class there are 14 girls and 13 boys.
What is the total number of children in the class?

b There are 55 shells in my bucket and 44 in your bucket. How many do we have altogether?

c I was given 20 dollars for my birthday.
I spent 10 dollars. How much is left?

d If I join my card collection of 27 cards with your collection of 62 cards, how many will we have altogether?

Mark or highlight the strategy or strategies you used to solve this problem.

1	Guess and check	6	Check for useful information
2	Make a table or chart	7	Find smaller parts of a big problem
3	Draw a picture or diagram	8	Make an organised list
4	Act out the problem	9	Solve a simpler problem
5	Find a pattern	10	Work backwards
